

SHAKESPEARE'S MACBETH

Is To Be Presented at the Tradens Grand
Opera House By the Eminent
Actor John Griffith.

No play has called forth a greater variety of opinions than "Macbeth." It has been characterized on the one hand as "the grandest conception of human genius," on the other hand the learned Dr. Johnson says "it has no nice discriminations of character." Another gifted writer of the past says "the play has the power to charm and bewitch every audience from that time to this"—so the public of today may readily see that from the time of its first presentation in 1603 up to this very day—a period of three hundred years—it has been a leading subject of thought and discussion among the world's greatest minds and the greatest actors the

world has produced within that time have gloried in giving performances of this rugged, forceful, dominant and majestic character. It is the greatest work of the great master of literature—the immortal Shakespeare, and the announcement of its performance will interest the best minds of any community and attract immense audiences of scholars, critics and lovers of the best the theatre can possibly offer. The eminent tragedian, John Griffith, has taken it up for his present season's tour and will play it here on Thursday, Sept. 29, with all the advantages of a superb company of legitimate artists, elaborate scenic equipments, electric effects, chemical illusions and all possible aids to a perfect performance.

"Over Niagara Falls," Oct. 7.

"Over Niagara Falls," Rowland & Clifford's scenic production, which will be the offering at the Tradens Grand opera house on Oct. 7, is heralded as the sensational success of the season. It is said to be superbly mounted, to abound in heroic scenes and startling situations. Several mechanical effects, new to the stage, are introduced, the principal one being a reproduction of Niagara Falls, over which the leading lady makes a thrilling descent in a most sensational manner. An especially strong cast will be seen in the various roles.
